An international network of researchers, producers, advisors and local experts ...

... analysing agricultural production systems, their economics, framework conditions and perspectives globally.
agri benchmark
– a unique global network

- An expert network which started 20 years ago
- Global, non-profit, independent
- Standardised methods → global comparability
- One approach for six branches in more than 60 countries
We harvest data around the world.

<table>

* 38 farms appear twice due to complete cycle (cow-calf + finishing in one farm)
agri benchmark’s Standard Operating Procedure (SOP) to define typical farms.

1. Identification
   LOCAL SCIENTISTS

2. Data collection
   LOCAL SCIENTISTS, ADVISERS, FARMERS

3. Processing and cross-checking
   LOCAL SCIENTISTS

4. Validate and publish results to partners and clients
   LOCAL SCIENTISTS, SCIENTISTS AT AGRI BENCHMARK CENTER

5. Update data
   LOCAL SCIENTISTS, ADVISERS, FARMERS
We bring people and their expertise together and create detailed and comprehensive data sets.
We are working on an annual schedule.

New partners joining anytime

Permanently
Projects using existing and generating new data and expertise

Further development of tools and methods

Trainings Dec-Feb

Data collection and update Feb-May

Conference Jun

Reports Oct-Nov

Data bases Oct

agri benchmark - a unique global network
Our clients are from research, governments, industry, (inter)national organisations and NGOs.
Main outputs.

Global farm comparisons and benchmarking

Projects on competitiveness
Projects on practice change in the context of sustainability

Sector data on global and national level (inventories, production, consumption, prices, trade)
agri benchmark – passionate about facts.
